MR. GLADSTONE.

LONDON, October 28th. At Edinburgh, in his final speech, Mr Gladstone urged strict economy, and said that the present outlay for both the Army and Navy exceeded the limits of prudence and propriety. Mr. Gladstone greatly deplored the oppression of the Russian Jews, and was convinced that the Czar would certainly disapprove the present treatment if His Majesty knew all the facts of the case.

WE hear that the annual Police musketry competition, for prizes to be awarded to European and Indian members of the Force, will take place in the course of a few days. Genera Gordon, Acting Captain Superintendent of Police, is going to present the member who proves himself the best shot in the Force with a handsome silver cup, and the lucky winner of it can claim to be the "champion." This presentation cup offered by General Gordon is a new feature in the competition, and will doubtless stimulate competitors to make better shooting than has yet been known here. The competition will be limited to "first marksmen" and "first-class shots," and the prizes are arranged as follows: -The best shot in the Force, General Gordon's Cup; second best shot, a Cup value \$20; the third man, a Cup value \$10; the fourth, a silver watch-chain; the fifth, a set of gold studs. The Indian members will receive money prizes ranging from ten to three dollars.

WE shall have to institute an animal quarantine if commanders of vessels commit such acts of incredible folly as the captain of the Russian transport St. Petersburgh has been guilty of. On arriving here last Friday, the vessel proceeded to Aberdeen, to dock. Whilst there four head of cattle which were in an advanced stage of pleuro-pnemonia; were landed. The police. telegraphed for Mr. J. Kennedy, who, on going there and seeing the condition of the animals. sent word ... Mr. McCallum, the Sanitary Superintendent. That official despatched Inspector Rae, Assistant Veterinary Inspector, who destroyed the beasts and had them towed out to sea. They were part of a herd of twelve, some of which were shipped in Korea. Two of them died on the way here, which in itself ought to have been a warning to the commander. If nothing can be done to make him understand his folly, at least we can warn Singapore, where they do these things better, of the advent of six diseased cattle. In the meantime we would ask if our Government is going to overlook such scandalous

THE Pahang correspondent of the Straits Times rites:-The subject of Mons. May rena's intention to leave Tioman before the monsoon sets in, so th t there is a chance of His Majesty being seen in Singapore. His establishment at Tioman consists of some Chinese boys and two Egyptians, together with a couple of his compatriots named M. M. Scott and Villeroy. He has built a fair-sized house on the west of the island, and gets his provisions, &c., from Singapore and Endau by means of two boats which he has with him. M. Scott joined M. Mayrena, who is stated to have said that he has come to the c ast of Pahang simply for the benefit of his health, which has been far from good for some time now. Can the rumour of a probable rising of the Malays when the Kuala closes have any connection with the Frenchmen at Tioman? Perhaps this belief has been the origin of the communication from one of your correspondents in a late issue of the Times, to which I gave a contradiction not long

THE embezziement case, Dross Opium Farmer versus Hu Chong Ku, accountant, came on for hearing in Mr. Wise's, parlour at the Magistracy this morning. Mr. Mossop conducted the prosecution, and Mr. Caldwell defended. It was maintained that the defendant had embezzlee the sum of \$100 80 belonging to his employer, by holding on to certain sub-licensees' fees which it was his duty to collect and hand over to the chief cashier of the firm. The case stands remanded for a week, bail being fixed in one surety of five hundred dollars.

THE M'Kinley Tariff Act came into force on the 6th ult. Among the clauses which are likely bear upon the trade with the. Far East, we note that the duties on tobacco, in schedule 6, are nearly doubled. A special stroke is aimed at imported leaf tobacco suitable for cigar wrappers. This is done, of course. "to protect domestic growers of wrappers." Most of the leafy tobacco imported from Cuba is said to be of so good a quality as to be suitable for wrappers. Now, the wrapper, or outside leaf of the cigar, is, as every cigar merchant knows, and as every cigar smoker ought to know, the most important part of the thing. A lower quality of tobacco will serve for the inside. If the leaf enfolding it is of a high quality the cigar will have a full fragrance, in spite of the comparative inferiority of its inner parts. The duties on imported tobacco in 1889 were \$11,194.486. They are now so raised as to bring in a calculated total of \$20,948,556. As a set-off to the native consumer, the internal taxes on tobacco and on dealers in tobacco are to be repealed. In schedule 10, flax, hemp, and jute, the changes are said to be slight. The rule followed is that articles of luxury are most heavily taxed. The list of goods subject to duty and of the duties on them is long and complex, and is divided and sub-divided very minutely. Under schedule 12, silk and silk goods, there are not many changes. Raw silk not advanced in manufacture in any way is placed on the free list. On lees, embroideries, neck rufflings, and other articles of luxury the duties are raised from 50 to 60 per cent. ad

extended as it was on Saturday night, on the occasion of the performance of "Maritana" by Miss Gracie Plaisted's Company, the managerial coffers would resemble the Manila lottery in few weeks. Almost every seat was taken, and the verdict returned by the occupants at the close was that what wasn't "good" was funny, and considerable deal was both. This, with all due respect to Miss Plaisted and Mr. Harding, was very greatly due to local talent, which had come forward with a courage that did it infinite credit. The chorus had none of the usual dull monotony which so often wrecks the effect-they were nice and variegated, big 'uns and little 'uns, and their costumes were things to rest the eye upon. And they sang very well, all round. Miss Plaisted-after the choruspervaded the piece as Maritana; unfortunately she had a really severe cold, and although she concealed the calamity heroically, occasionally manifested itself in a pretty little cough, and marred the sweetness of her singing noticeably. Nevertheless she acquitted herself as the thorough operatic artista which she is. Mr. Harding was also handicapped with a pharynx that had gone back on him, and he was not heard at his best, unfortunately But his interpretation of the role of the dissipated cavalier Don Cesar de Bazan was faultless. The heavy part of Don José was very ably filled by Mr. C. H. Grace, whose singing was even better than his acting, which is no faint praise. His solo, "In happy moments," would have been well deserving the encore it evoked, if he had only known the words. Mr. J. M. Laing was overweighted with the part of the King of Spain-his first appearance as a principal—and he unsuccessfully endeavored to shake off his nervousness. Miss Jewel Deant was pretty much in the same boat, as Lazarille but improved greatly as the opera progressed. Mr. Geo. Lammert was of very great service as musical director. To-morrow night !! The Acting Colonial Secretary laid on the table a statement respecting the proposed loan, asked for by Mr. Whitehead at the last meeting. It showed that in 1887 the Crown Agents floated a 4 per cent, loan of £200,000, receiving tenders to the amount of £737,400, the allotments averaging £100 14s, 9d, per cent.

He was very desirous that the Fatimates should be got through as quickly as possible, and though he did not wish to hurry their consideration through the Council without giving the unofficial members every opportunity of going through the items he must remind them that they ought to reach the. Secretary of State before the end of the year. He did not want to be misunderstood in saying that, but the motion of which Mr. Ryrie had given notice appeared to substantially propose the adoption of the same system here as in the Straits Settlements -that was to say the Estimates were not to be considered in public by the Finance Committee, as at present, but by the unofficial members, assisted by the Colonial Secretary.' If the unofficial members here desired that to be done he saw no objection to the consent of the additions to the existing buildings, or of building Government being given, except for the fact that it put the Estimates in charge of two Committees | these proposals is sanctioned. The unofficial members had already considered that question very carefully indeed; if it had not been for them it could not have been considered at ell, as the official members could not make any recommendations about their own salaries. With respect to the question of Extraordinary Expenditure, if the unofficial members desired that any item should be referred to the Public Works Committee, in order that it might be thoroughly discussed, or if they desired its consideration by a special committee-which course would not interfere with the Estimates as a whole being considered by the Finance Committee—he was agreeable. As to the question of the military contribution, which Mr. Ryric had referred to, he could not see what particular/reason there could be in considering that very important item, except in Council It was an Imperial question, and one which undoubtedly affected our Colonial interests, but it was one in regard to which, if the unefficial members wanted to express their opinions, they should do so as openly as possible. The third reading of the Bill entitled "An Ordinance to give further powers to companies with respect to the alteration of their memorands of Association " was postponed.

The Council then went into Committee on the Supplementary Appropriation Bill.

OUR PUBLIC WORKS,

At the meeting of the Legislative Council last

Monday Mr. T. H. Whitehead moved:-That Council postpone consideration of the Estimates for 1801 for Public Works Extraordinary, No. 29 on the Abstract List-in so far. as regards the following numbers under the heading-Nos. 1, 8, 9, 11, 13, 15, 16, 18, 21, 25, 29, 32, 34, 35, 36, and 37, until Government lay on the table a general statement of the proposed works, shewing what is to be done in each case and the necessity for the works together with estimates and plans, including a definite statement of their intentions with reference to drainage and water-works, so that the Council and the public may know precisely what it is the Council are asked to sanction and for what purposes the money to be voted is to be used. Further, that the Government lay on the table a copy of the despatch and statement sent to Lord Knutsford in reply to his despatch of 18th April last, also a fresh report from the Surveyor-General as to what works he can now reasonably undertake to do during the ensuing year, and also a report detailing the Public Works to which the Colony is already actually committed.

The information, was laid on the table at to-day's Council, in the form of a report, dated the 14th August, by the Surveyor-General, from which we make the following extracts :---

THE CENTRAL MARKET.

In submitting my report of 5th February last. on the Central Market, I stated that I had been. unable to prepare detailed drawings, but that I estimated this building approximately at \$235,000. The detailed drawings have now. been prepared. The progress of the excavations has also allowed a more careful examination to be made of the foundations, which prove to be of a less favourable nature than I was led to anticipate. With a view of meeting this contingency, and of providing fittings for the shops and stalls worthy of this, the principal market of the city, I find it advisable to increase the estimate to \$270,000, which will, I trust, prove sufficient to complete the Market ready for

occupation.

GAP ROCK LIGHTHOUSE. In the Estimates of 1880, the provided for this lighthouse is \$70,000. I can, however, find no details on which the estimate is based. It is certain that a revolving light of the first order could not be constructed, under the most favourable conditions, on such a site for that sum. It should be borne in mind that the conditions under which the lighthouse is

staff had to be specially organised for this work. position was not quite so brilliant as they After going carefully into the matter I estimate thought it was a year or two ago they considered the cost of the lighthouse at \$100,000, less it desirable to take every precaution in super- \$30,0:0, the estimated value of the steamship Fame on the completion of the work, thus His Excellency pointed out that under rule 14 making the net cost \$150,000. Although this is a large sum, it compares favourably with the as decided by the Council, might be put without cost of other Lighthouses erected on isolated rocks similarly exposed.

The sum of \$16,000 has been already sanctioned for filling in the lake and improving the surface. To this amount I have added \$24,000 to provide for the diversion of the stream, and the works necessary to enlarge the Recreation Ground from about 26 to 40 acres, by including in it the spaces known as the Public Garden on each side of the Bowrington canal, in the event of these works being sanctioned by His Excellency the Officer Administering the Government.

#### GAOL EXTENSION.

I have included the sum of \$140,000 with a view of providing for certain alterations and a new block on another site, in case either of must be regarded as an approximation only.

CATTLE DEPOTS.

The Estimates for 1891 provide for :--Cattle Depôt Extension.....\$ 10,000 Slaughter-House and Sheep and Pig Depôts ...... 90,000

Total.....\$100,000

The Estimates for 1889 contain the following

Slaughter-House.....\$ 35,000 Extension of Cattle Market (Qr. D po:) 140'0 Sheep and Pig Market (Qv. Depô s)..... 25,000

Total.....\$ 74,000

A change of site has been decided on, and the demands of the Colony having increased. more extensive accommodation has been provided than was orginally contemplated. This accounts for the increase in the estimate. The working drawings are now in course of preparation, and it will, I think, be found that the amount inserted in the estimates will be a close approximation to the actual cost.

#### PUBLIC LAUNDRIES.

The amount inserted in the Estimates (\$25,000) s the same as last year's. A committee of the Sanitary Board has recently sat on this subject. If the recommendations of the committee, that all the washing of the city shall be done in public laundries, is carried out, it will probably be necessary to expend a larger amount then that now recommended. Until, however, that establishment of public laundries has advanced beyond the experimental stage; I would suggest that the expenditure be limited to the am unt

PUBLIC LATRINES.

It is proposed to ask next year for \$10 000 in addition to the \$7,000 included in the Estimates of the current year. The establishment of these conveniences for the Chinese community throughout the Colony has been recommended by a committee of the Sanitary Board, but I. should advise that the expenditure be limited to \$17.0.0 until experience has shown how the plan works.

**OUARTERS FOR STAFF OF CIVIL HOSPITAL** The amount included in the Estimates of 1890 is \$60,000. There had been expended previously the sum of \$14,022, making a total of \$74,022. I have reduced the total estimate to \$66,000, which will, I trust, be found sufficient to complete these buildings.

LUNATIC ASYLUM FOR CHINESE.

The sum of \$16,000 is included in the Estimates of 1800. Since this estimate was prepared considerable ad litions and alterations have been made to meet the requirements of the medical authorities. To provide for this extra work it has been necessary to increase the estimate to \$20,000.

POLICE STATION, ABERDEEN.

\$25,000 is provided for this building in the Estimates of 1800. In order to meet the requirements of the Police department it has been found necessary to increase the amount of accommodation considerably beyond that originally contemplated. This has involved an increase in the estimate, which now stands at \$32,115.

POLICE STATION, KENNEDYTOWN.

This building, although completed nearly a year ago, so far as the fabric is concerned, is not it appears required at present for occupation by the Police. Consequently water has not been laid on, and in the meanwhile slips have occurred in the hill immediately in the rear of the buildings. To prevent damage a retaining wal' is required. To provide for these works the estimate has been increased by \$3,000.

DISTRICT SCHOOLS.

The sum of \$25,000 is included in the Estimate I 1889 for five district schools. In the Estimate of 1890 is included \$5,000 for one district school. After considerable delay a site has been selected but the amount provided is altogether inadequate o build a school of the size demanded. The sum of \$10,000 has been inserted for a school the western district of Victoria, and \$8,000 for another school in Yaumati, the largest village of the Kowloon perinsula. ADDITIONS TO GOVERNMENT HOUSE,

The sum of \$25,000 was inserted in the Estimates of last year in part payment of this work. The total estimated cost (\$40,000) has been approved by the Legislative Council, and is included in the Estimates of 1891. RE-CONSTRUCTION OF THE GOVERNOR'S PEAK

RESIDENCE.

The present quarters at Mountain Lodge provide altogether inadequate accommodation, and are in a dilapidated condition. It is dealf: able that an improved residence should be constructed as soon as a site is decided on.

QUARTERS OF SUPERINTENDENT, BOTANICAL AND AFFORESTATION DEPARTMENT.

The sum of \$12,000 was included in the Estimates of 1889 and 1890 Public tenders have been obtained for a building practically based on a design left by my predecessor. The lowest tender is about \$19,000 and as some extras are not included I have inserted the sum of \$22,500 in the Estimates.

EXTENSION OF THE GOVERNMENT OFFICES AND CONSTRUCTION OF NEW LAW COURTS.

have received instructions to study this question with a view, if possible, of including the cost of the necessary building in the Estime ates of 1801. I have explained, however, in a previous compunication that the subject is a large one, and involves a vast amount of detail It is quite impossible for me at present to submit any definite proposals. As, however, the question is very important, I have inserted an. amount in the Estimates, rather with the view. of calling attention to the fact (of which there can, I think, be no reasonable doubt) that it will be necessary, at no remote period, to provide a

Department and the Law Courts. Colony has out-grown what was thought, and probably was, sufficient, years ago. The loss of owing to the offices of the Attorney General and Treasury, being removed so far from the Chief Secretary and the Surveyor General, are very serious. I propose to provide accommodation for these offices, and for the Law Courts, in buildings to be erected in the vicinity of the present offices. It is hoped that the military authorities will give up the disused Murray | themselves, sufficiently for the character of the Battery for the purpose. as a very rough approximation. The sum of \$12,000 has been inserted to lords, and no cause assigned for it. provide for the improvement of Queen's Road, West, now under the consideration of the Government.

If these works, now proposed, are carried out

and allowance be made for others for which the necessity will probably arise from time to time, it would appear that it will be necessary, within the next few years, to expend on public works a sum little short of two millions of dollars. If to this he added the expenditure proposed by Mr. Chadwick on sewerage and water-supply | rington will join O'Brien and Dillon in Paris and (\$750,000) we arrive at a total of \$2,750,000. If this be divided over five years the average annual expenditure would amount to \$550,000, or allowing for contingencies, say \$600,000. It is, of course, probable that Government may not carry out in their entirety the whole of the works now proposed. The question arises how is this large expenditure to be met. I observe in the Estimates of past years it is stated that the outlay on "Extraordinary Public Works" is to be defrayed from balances, and premiums on land sales. It is, I think, my duty to call special attention to this matter. When the question of meeting the cost of the proposed works is under consideration it is safer to over-estimate, rather than under-estimate, the probable expenditure. I venture to recommend to the consideration of His Excellency the Officer Administering the Government what I can but regard as the inexpediency of depending, to a large extent at least, on the sale of Crown lands in order to meet the heavy outlay to which Government is more or less committed. If land be forced upon the market, or sold during a season of financial depression, it is certain it will not realize anything like its real value. The Colony would money on loan to cover any surplus required for extraordinary expenditure that cannot be paid from balances in hand, or ordinary revenue, This would enable the Government to choose the best time for disposing of those Crown lands

which yet remain in its possession. It may be well to add that among the works included in the Estimates now submitted some of the more costly should prove highly remunerative, and the cost of others will be repaid by special rates. Among the works included in the Estimate, amouning altogether to \$1,823,737 there are included works of a remunerative native, or of which the cost will be repaid to Government, amounting to \$1,139,448, f.e., nearly two-thirds of the total Estimate.

A WHALING CREW'S ADVENTURE.

The Russian troopship St. Petersburgh, which arrived here on Friday last from Wladlvostock, had on board the second officer and five men belonging to the crew of the American barque C. W. Morgan, of San Francisco, who, while whaling in the Sea of Okhotsk, lost their ship, and, after many hours of hardship, reached the island of Saghalien, from which place they were ultimately taken by the transport St. Petersburgh to Wladivostock, whence they came to Hongkong. The second mate. Mr. H. A. Martin. gave the following account of their experiences to our representative: - On September 1st, about I p.m., when the barque was about 75 or 80 miles off the Island of Saghalien, in the Okhotsk Sea, a very large whale was sighted. Two boats were lowered, and about 3 o'clock Martin's boat harpooned him, but, owing to their gun not working properly, they were unable to kill him. The whale at once set off at a terrific speed, taking them to windward of the ship and of the other boat, of which they soon lost sight. They held fast to the whale until it became dark, when they let go, and found that their boat had been badly damaged by being forced along at such a rapid pace against a very high sea. and it became almost impossible to keep her from filling. All night they sailed about, looking for the ship, but, were unable to find her. The next day a thick fog set in, and as their stock of provisions was confined to ten pounds of bread, soaked with seawater, and about two gallons of fresh water, they lost no more time looking for their ship but made for the land, which they reached on the 4th of September hungry and exhausted. the last of their bread having been eaten the previous day, and but two "tots" of water being left for each man. accompany them to America. Mr. Balfour, speaking at Newcastle yesterday, maintained his policy towards Ireland, and said that the policy of the Irish party was anarchy and would inevitably result in disaster to Ireland.

SYDNEY, October 18th. A letter has appeared from the representatives of the employers of Sydney in which phases o the strike are reviewed, and the strikers invited to resume work on the former terms.

ROME, October 18th. Lord Dusserin shortly resumes negotiations

with the African boundary question. BERLIN, October 18th.

The nomination of Major Wissmann to the Governorship of the German Lake Territory in Africa is expected. NEW ORLEANS, October 19th,

Considerable excitement has been caused here owing to the murder of the Police by some Italians belonging to the Secret Society called the Mufia Society. The citizens are furious and demand that no more immigrant Italian paupers, probably gain greatly in the long run, by raising | brigands, and convicts be allowed to land. The Mayor has received a threatening letter from Mufia Society.

LONDON, October 20th. General Booth, head of the Salvation Army, has published a book entitled "In Darkest England" in which he sets forth a scheme for reclaiming the lower social strate by establishing shelters, towns and farms in the province and encouraging emigration to the Colonies. He calculates that the scheme would involve, an outlay of one million. The London Press comment favourably on it.

Thirteen men on board Her Majesty's ship Camperdown were injured off Scarborough while slipping cables during the gale and one man washed overboard.

Mr. Gladstone has been most cordially received en route to Ediaburgh.

NEW ORLEANS, October 21st. Forty Italians who have just arrived here

rave been arrested LONDON, October 22nd.

October 21st.

Mr. John Morley, speaking at Newcastle, made a vigorous rejoinder to Mr. Balfour's speech here last week and re-affirmed the charges brought against Mr. Balfour's Government of Ireland. Earl Granville, in a speech, condemned the Tipperary Trial.

A Commission is being despatched to India by the Leprosy Fund to-morrow, and will remain in India for one year and report within six months regarding the withdrawal or forced isolation of lepers. The Committee of the Leprosy Fund have announced their intention of endowing two studentships for the study of the disease, one for Europe and the other for China and the Colonies.

Mr. Gladstone yesterday addressed a meeting of five thousand people at Midlothian, when he condemned the Government in Ireland in a most scathing manner, and taxed them with shadowing and jury packing. He described the Liberal Unionists as ultra-Conservatives, and urged his hearers to rally for an attack on the last fortress of bigotry and prejudice.

Continued scenes are taking place in the Court house at Tipperary. Mr. Sheehy, one of the defendants, was yesterday committed for one week's imprisonment for contempt of court.

ON BAIL. When an affluent citizen treads on the digulty of the Law-which he frequently does-and is arrested in consequence—which doesn't often Wladivostock and from there were sent here to suspected of having pawned a stolen chisel or a pair of embezzled boots in order to quench his thirst, ball is often a matter of difficulty. The other man can easily hire someone to go security for him, and pay him out of the money that has gone amissing in the bank or the building society, but the smaller offender, having only stolen enough for immediate requirements, has kind of gas or wind came up into his throat, like the no such resources at his command. Owing to offluvis from a tomb. His wife called his attention the elaborate system in vogue in the police force, by which the cheap, unconsidered "suspect" is arrested without evidence, and then remanded from week to week till some facts can be hunted up, and kept in prison the while so that he can't collect any information to confute the charges brought against him, it is a matter of common occurrence for the less important criminal to be

locked up for nine or ten weeks while waiting

for a sentence of three months imprisonment;

system of justice at the best. The only equitable scheme which can be devised is to enact that in every case where a conviction is obtained the term of imprisonment imposed shall commence from the day when the accused was first confined on suspicion, the period which he has spent in prison while awaiting trial thus counting as part of the final sentence. Under any other plan the system of granting bail is merely a device whereby the affluent offender is allowed to purchase partial immunity for his crimes and this legalised corruption has become so common that few, even among unprejudiced observers, appear to be impressed with its glaring iniquity. And at the best it is only possible to find a remedy for part of the evil, for in cases where no conviction ensues, the poor defendant has suffered probably as long a term of imprisonment before it is discovered that he should never have been imprisoned at all, as if actually found guilty, while the rich one has merely endured the passing inconvenience of having to hunt up an affluent friend to sign a document on his behalf; but in a world where justice has always been bought and sold, and will continue to be bought and sold till the day of doom, absolute equity is too hopeless to be worth dreaming about. The wealthy offender who is out on bail is generally able, unless he is an ass of the first water, to buy enough evidence to prove his innocence even when he is undoubtedly guilty; the poor delendant whom nobody will go ball for has to lie helpless in prison while the police hunt up a profusion of. fluent testimony to prove his guilt even when he is certainly innocent. It has always been so, and will continue to be so to the end, and it would be an outrage on the British constitution if it were otherwise. But the small reform we have suggested can be carried into effect without violating that fundamental principle which declares that it doesn't matter whether a person who has no money and influence is in gaol or out of it, and so long as this treasured axiom is

Dip the finding of that article save the man's life? That is the question. Is there a divinity that shapes our ends? or are events but a mere series of accidents, which may happen to one person as well as another. Are the experiences that compose our lives links in a chain, or loose grains of sand? As you answer these questions, as you take the one side or the other, so is your taith; you are a materialist or a believer in Providence. We now propose to relate a story in illustration of this problem which may have some effect in arousing those who have always thought themselves the subjects of blind chance. The following facts are fully vouched for, and resemble occurrences in the lives of multitudes.

Soveral years ago Griffith Jones was a policeman at Holyhead, Wales. He had a family consisting of a wife and five young children to take care of. Holyhead is on St. George's (or the Irish) Channel, and is open to the terrific gales that so often gather on hose dangerous waters and beat with violence upon the coast. Jones' "post" or "beat" extended back into the country, over bleak, wind-awent hills. He had to walk through this region in all weathers. day or night. He was often out in winter nights, in cold and darkness, exposed to the storms that drive in from the sea. At such times the wife listened to the rattling windows, and prayed that the husband and father might take no horm in the wild tempest. This was hard lines, but in the family (though they were poor enough) there was still health and comparative comfort. But in a bad storm the policeman caught that a heavy cold. Home remedies failed to ours it, and this little commercial transaction fails to go the officer sent to his old physician at Abertirary for At this place they were treated very well by the ed; and when we consider how very rarely the "queer" and painful. The doctor said it was the Russians, being provided with good quarters and | defendant fails to appear when wanted, there | liver, and he was right; but correct opinions don't plenty to eat until the 25th of October, when | can be no possible objection to the system. But | cure disease. His head troubled him too, and he was they were put on board the St. Petersburg for in the case of the humble artisan, who is often so giddy he could hardly walk. "I am so tired and weary," he would say. "I don't know what makes me. I try to rest and sleep, but get up just as dead tired as when I go to bed.

Then worse came. He sat down to his table, but revolted from his food; appetite was gone. There was a curious feeling at the stomach; it was cold, dull, and miserable, like a furnace which contains nothing but ashes and cinders. A nasty and nauscous to the ghastly yellow colour of his eyes and skin, and once in a while he would have a spell of palpitation of the heart that made him afraid of falling deadperhaps in some lonely place.

In spite of it all, however, Policeman Jones kept on duty as much as ever he could. Of course. So would any honest, plucky man. But he slopt fitfully, with had dreams. He oried out sometimes with the terror of them, and the frightened children said. "Is papa going to die?" He was, and is, one of the most patient and loving of men, yet now he was cross and surly to his family. Then something new developed. There came a pain under his left shoulder blade; his wrists and knoce grow swollen and painful; this was rhoumatism, caused, the doctors said, by the undigested and fermented food having poisoned the blood. Kidney and bladder complaint followedfor they also are merely symptoms of indigestion exceedingly rare, and they form a hapharard and dyspepsia. The policeman now felt that he

must give up, and, if he did, then what? He could

foresco nothing but destitution. Now we come to the event which suggested the question with which this short history begins Was it an accident or was it a link in a saving chain? Entering the Holyhead station-house one day, ill. depressed, weak, and miserable, he saw a little pamphlet upon the table. He picked it up and began to read it. In a few moments his mind was riveted upon its pages. In clear, plain language be found his own case fully described, just as though the book had been written for him and for him along, It named a cure for all his ailments, a medicine called Mother Seigel's Curative Syrup. The plain honests of the statements won his confidence. He procured half-a-dozen bottles through Mr. Henry Wilson, of the Drug Hall, Holyhead. Taking it he began to improve. and all his aches and pains vanished in a few wooks. This was August, 1879. Ten years have passed, but not a sign or symptom of his ailment has returned. Mr. Jones entered upon a more lucrative business, and wherever he goes he aprends the fame of Seigel's Syrup, and insists that the glimpse of the book on the table settled the point as to whether he should go under the sod or be the strong new man he has been ever since. - [Advt.
